# A Smarter Health Benefit for a Modern Workforce

A Broker-ready Solution for Today's Employers

Demand for discreet, virtual-first care — especially for weight loss, mental health, and men's health — has never been higher. **CarePlus delivers all three and more in a streamlined, ready-to-deploy solution.**

## Weight Loss

GLP-1 medications like semaglutide available online, with support for nutrition, activity, and sleep

## Hair Loss

Proven ingredients like minoxidil and finasteride prescribed based on individual needs

## Skincare

Acne, rosacea, fine lines, and more — all treated by licensed clinicians

## Erectile Dysfunction

Discreet, online access to two popular ED medication options

## Anxiety

Medications and ongoing care for anxiety disorders and related symptoms

# Built to Help You Win & Retain Business

care **PLUS**

## Reduce Specialty Care & ER Claims

Reduces unnecessary in-person visits by handling common conditions virtually

Avoids high-cost specialist claims for treatable issues like anxiety, ED, or skin conditions

Addresses health issues before they escalate into costly interventions

## High-perceived Value at Low Cost

Reduces unnecessary in-person visits by handling common conditions virtually

Avoids high-cost specialist claims for treatable issues like anxiety, ED, or skin conditions

Addresses health issues before they escalate into costly interventions

## Fully Packaged With CareValidate

Included in the CareValidate health benefits bundle

No integration required — just activate and promote

**Great fit** for mid-sized groups, hybrid/remote teams, and clients facing high specialty claim costs.
