Why Employers Choose CarePlus

Lower Rates of Absenteeism

Address common health issues that affect focus, confidence, and performance

Help employees manage anxiety and other concerns before they lead to burnout, time off or reduced efficiency

High Value, Low Cost

Feels like a premium healthcare benefit without high-cost buy-in

Enhances your existing benefits package — no extra budget needed

Reduce Specialty Care & ER Claims

Reduces unnecessary in-person visits by handling common conditions virtually

Avoids high-cost specialist claims for treatable issues like anxiety, ED, or skin conditions

Addresses health issues before they escalate into costly interventions

Seamlessly Integrated With CareValidate

Already included in your CareValidate benefits package

No new systems, no extra admin — just share with your team and they can start using it right away
